

RON'S GARAGE QUARTERLY NEWSLETTER

A Message from Ron: Spring has Sprung!

"This time of year, we start to see vehicles being driven more consistently again with longer trips, more stop-and-go traffic, and overall increased use.

It's important to make sure your vehicle is prepared for that shift. Sometimes everything feels fine while driving, but there can still be underlying wear from the past few months.

Our goal is to help you stay ahead of those issues so you can drive with confidence, no matter what your schedule looks like."

– Ron

Tinkerbell's Corner

Tinkerbell continues to enjoy her role as the official Ron's Garage mascot, spending most of her time in the office keeping a close eye on daily operations. She may not always be out front, but she's still very much part of the team and adds a little extra personality to the shop each day.

SEASONAL HIGHLIGHTS

As we move through April, May, and June, this time of year tends to bring a mix of everything—changing weather, busier schedules, and more time spent on the road.

Whether it's daily driving, weekend plans, or getting ready for summer travel, this is a great time to make sure your vehicle is keeping up with your routine.

Here are a few important dates to keep in mind this quarter:

Easter – April 5th

Mother's Day – May 10th

Memorial Day – May 25th (Closed)

Father's Day – June 21st

We recommend planning ahead around holiday weekends, as schedules tend to fill quickly.

Seasonal Service Spotlight

With more driving happening this time of year, this is when we focus on making sure your vehicle is performing consistently and reliably.

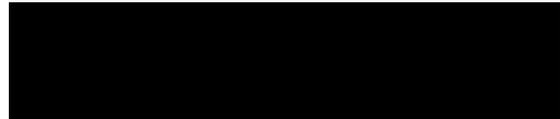

A few key areas we're paying close attention to this quarter:

Fluid Condition: As temperatures change, fluids play a critical role in keeping your vehicle running smoothly. Making sure they are clean and at proper levels helps prevent unnecessary wear.

Tire Condition and Wear: Increased driving means increased tire use. Checking tread depth and wear patterns helps maintain safety and extend tire life.

Brake Performance: Whether it's daily commuting or road trips, your brakes should always feel consistent and responsive.

Battery Performance: Seasonal transitions can impact battery reliability more than most people realize.

WHAT'S HAPPENING THIS QUARTER

We're excited to bring some fun and savings into the shop over the next few months. Be sure to stop in and take advantage of what we have planned:

April – Easter Egg Savings
Stop in during April and pick an Easter egg filled with special savings and surprises.

May – Scratch-Off Savings
Every visit in May gives you a chance to scratch and reveal a discount or offer.

June – Basket Giveaway
We'll be hosting a special giveaway in June. Be sure to enter for your chance to win!

We love finding new ways to give back to our customers and make your visits a little more fun.

Call or stop by for more details.

EMPLOYEE SPOTLIGHT – TYLER

This quarter, we're proud to highlight Tyler and the progress he's made here at Ron's Garage. Tyler started with us as a shop hand and shuttle driver, learning the ins and outs of the shop while helping wherever he was needed. From early on, he showed a strong work ethic and a willingness to grow. Through continued effort and dedication, he completed his training through the state and successfully earned his certifications. Today, he has stepped into a technician role and continues to build his skills every day. We're proud to see that kind of growth within our team and appreciate the hard work Tyler has put into getting to where he is today.
