A Message From Ron: More Than Just Fixing Cars

"When you've been part of a community as long as we have, you realize running a business is about more than the work you do every day. Ron's Garage has always been about the people who walk through our doors.

As we head into the holiday season, giving back is one way we can say thank you. In November, we'll collect donations for Food Gatherers, followed by our Humane Society donation drive in December.

Seeing our customers get involved is always special. Every donation adds up and shows what can happen when a community comes together.

Thank you for supporting Ron's Garage and helping us give back to the community we're proud to call home."

-Ron

Michigan Winter Car Care: Myth or Fact?

1. "You should let your vehicle warm up for 15 minutes before driving."

MYTH! Modern vehicles generally don't need a long warm up. Giving the vehicle a short period to get going and then driving gently is usually better than letting it sit idling for a long time.

2. "Cold weather can lower your tire pressure."

FACT! Tire pressure decreases as temperatures fall, which is one reason that tire pressure warning light seems to make an appearance when Michigan temperatures suddenly drop.

3. "If you have AWD or 4WD, your tires aren't as important in the snow."

MYTH! AWD and 4WD can help your vehicle get moving, but your tires still play a major role in stopping and maintaining traction.

Tinkerbell's Holiday Wish List

Tinkerbell has a special Christmas wish this year! In December, Ron's Garage will be collecting donations for the Humane Society to help animals in need.

She's counting on her Ron's Garage friends to help us spread a little extra love to our four legged friends this holiday season! 🐾❤️

FROM THE REPAIR BAY

What's That Smell?

When you turn your heat on for the first time this season, you might notice a smell you haven't noticed in months. A brief dusty smell can be normal after the system hasn't been used for a while, but some odors shouldn't be ignored.

A sweet smell may point to a coolant leak, a burning smell could indicate an electrical or mechanical issue, and a musty odor may mean it's time to check your cabin air filter or HVAC system.

Your vehicle has ways of telling you something isn't right. Sometimes, you just have to use your nose!

HOLIDAY HOURS

As we celebrate the holiday season with our families, Ron's Garage will be closed on:

Thanksgiving • November 26th

Christmas Eve • December 24th

New Year's Eve • December 31st

We wish all of our customers and their families a happy, safe and wonderful holiday season!

WHAT'S HAPPENING THIS QUARTER

We have plenty happening at Ron's Garage over the next few months, from a little fun to giving back to our community!

OCTOBER • FUN & PRIZES

Our Guessing Game is back, and so are our Scratch Offs! Stop in throughout October for your chance to play, win, and have a little fun with us.

NOVEMBER • GIVING BACK & GETTING WINTER READY

We'll be collecting donations for Food Gatherers throughout November to help local families in need. Plus, purchase and have four tires installed at Ron's Garage during November and we'll cover the cost of your Road Hazard Warranty!

DECEMBER • A SEASON OF GIVING

We'll wrap up the year with our Humane Society Donation Drive to help local animals this holiday season.

And don't forget to keep an eye on your email because we have a special Christmas gift coming for our customers!

And there may be one more December surprise coming... stay tuned!

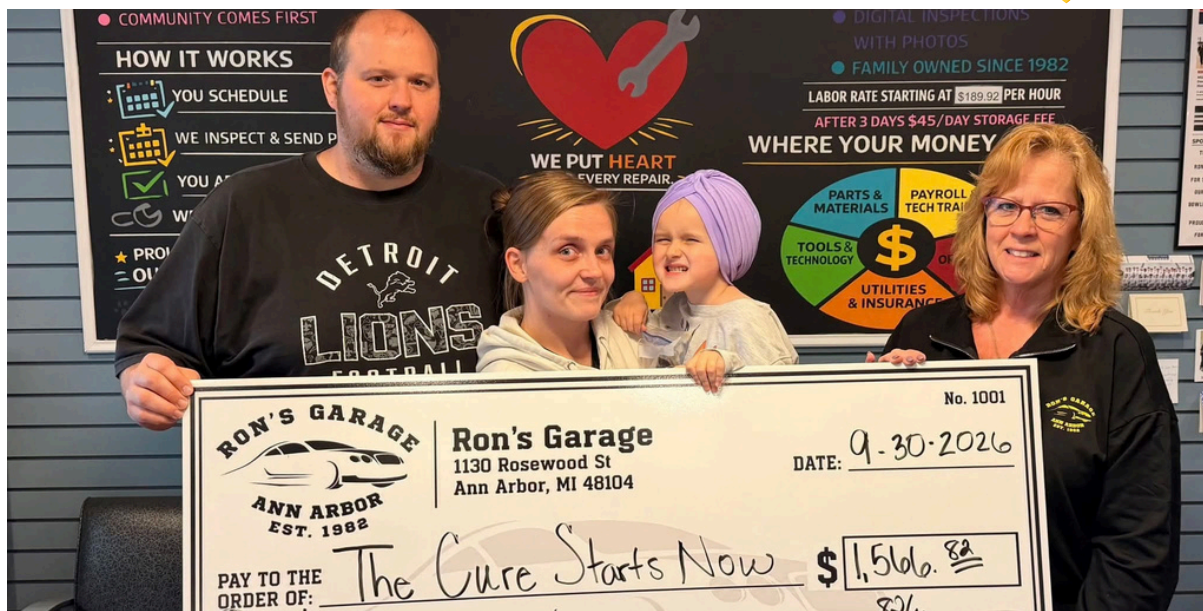

2026 at Ron's Garage: Thank You!

As another year comes to a close, all of us at Ron's Garage want to say thank you. Whether you've trusted us with your vehicle for years, just found us in 2026, referred a friend or family member, left us a review, participated in one of our community drives, or simply stopped in to say hello, we appreciate you.

We're incredibly grateful to be part of this community and look forward to keeping you on the road in 2027.

-From Ron, Cindy, Tinkerbelle and the entire Ron's Garage team, Merry Christmas and Happy New Year!

A VERY SPECIAL PART OF OUR FAMILY ❤️

Throughout September, we shared a little about Brynlee and why Childhood Cancer Awareness Month is so personal to our family. We wanted you to know a little more about the special girl behind the cause.

Brynlee is Ron and Cindy's six-year-old granddaughter. In early 2025, after months of unexplained health concerns, her family finally received answers. On April 9, 2025, at just four years old, Brynlee was diagnosed with Group 3 medulloblastoma, an aggressive form of brain cancer.

Brynlee underwent surgery to remove the tumor, followed by 30 rounds of radiation and 59 doses of chemotherapy. Her treatment also included hospital stays, blood and platelet transfusions, a feeding tube, and many other challenges no child should have to experience. Her parents, Sara and Travis, and her big brothers, Chandler and Kaiser, have been beside her throughout the journey.

Today, we are incredibly thankful to say: **BRYNLEE IS IN REMISSION!** ❤️

She continues to have follow-up scans, lab work, therapy and monitoring, but today Brynlee is six years old and moving forward after an incredibly difficult chapter of her young life.

WHY WE WENT GOLD

In Brynlee's honor, Ron's Garage donated 1% of our September sales to The Cure Starts Now to support childhood brain cancer research.

Thanks to our amazing customers, we were able to donate: \$1,566.82! Every customer who trusted us with their vehicle during September helped make that donation possible.

Childhood cancer research is a cause our family never expected to have such a personal connection to, but it is one we will carry with us long after September is over.

Thank you for supporting our family, supporting childhood cancer research, and helping us be Brave Like Brynlee. ❤️
